Profile

Business Informatics student at Technische Hochschule Mannheim with practical experience in technology consulting and software development at KPMG and Schwarz IT. Demonstrated ability to translate complex business requirements — including regulatory compliance (EUDR) — into structured solutions. Currently on engineering exchange at HKUST (Hong Kong), deepening expertise in AI and data systems. Combining a strong technical background with business acumen and cross-cultural experience, I am seeking analyst or consulting roles where both dimensions are valued.

Experience

Software Engineering Intern · KPMG – FS Tax Aug 2025 – Jan 2026

- Developed AI agents for automated document classification and data extraction, supporting financial services teams in reducing manual processing effort.
- Built internal tools to streamline tax compliance workflows, improving transparency and auditability for client-facing tax processes.
- Worked in an agile team alongside developers and consultants, gaining firsthand insight into Big Four project delivery and client service standards.

Consulting Project – EUDR Implementation · Schwarz IT KG Mar 2025 – Jul 2025

- Contributed to implementation planning for EU Deforestation Regulation (EUDR) compliance at Schwarz IT, the technology arm of Europe’s largest retail group (Lidl, Kaufland).
- Designed and developed a compliance tracking dashboard to monitor project milestones and regulatory status across business units.
- Conducted requirement gathering and process documentation using SAP Signavio as part of the consulting delivery.

Education

Exchange Scholar – School of Engineering Feb 2026 – May 2026

Hong Kong University of Science and Technology (HKUST)

Coursework: Machine Learning · Deep Learning in Computer Vision · Embedded AI Systems · Cloud Computing & Big Data Systems · Big Data Mining & Management · Tech Startup & Entrepreneurship Ecosystem

B.Sc. Business Information Systems Sep 2023 – Present

Technische Hochschule Mannheim

Coursework: Programming · Software Engineering · Databases · Web-based Systems · Business Administration · Mathematics
Activities: Computer Science Student Council Member · Code of Conduct Officer

Abitur Jun 2023

Gymnasium Riedberg, Frankfurt am Main

Advanced Courses: Mathematics, Physics

Skills

Programming	Python, Java, C#, JavaScript, SQL, HTML/CSS
AI & Data	Agents, Jupyter, Machine Learning, Computer Vision, Embedded AI
Business & SAP	SAP Fiori, SAP Signavio, SAP S/4HANA, Excel, Process Analysis
Tools	Git, Linux, Figma, GitHub, PowerPoint, Word, Power BI
Methodologies	Agile, Requirements Engineering, SDLC, Business Process Modelling

Selected Projects

Flight Logbook Application · Team Project – 5 members Java · MVC Architecture · Full SDLC

- Delivered a digital flight logbook for a real client from requirements through to deployment, applying full software development lifecycle methodology with comprehensive documentation.

Restaurant Management System · Group Project – Real Client HTML · CSS · JavaScript

- Developed a full-stack web application for online food ordering and employee shift management based on live client requirements.

Certificates & Awards

BVH Certificate Federal Association of Stock Exchange Associations at German Universities
3rd Place Stock Market Simulation Competition, B.Sc. Business Information Systems (Dec 2023)

Leadership & Activities

SV Niederursel 1919 Football player (Offensive Midfield); Youth Team Captain (2009–2023)
Frankfurt Physical Society Supported organisation of public science events (2019–2020)
Public Order Office Frankfurt Alcohol Test Buyer, contributing to youth protection enforcement (2018–2020)
